Testimonial

As a parent of children at Farmborough Road Public School for the last four years I have nothing but praise for the school, it’s wonderful principal and it’s dedicated teachers and support staff.

I was motivated to write this testimonial after overhearing a conversation between my children with each one claiming his teacher to be ‘the best’. While listening to this comparison with each trying to out do the other with the virtues of his teacher, I realised yet again how fortunate we are to have chosen Farmborough Road and what a rewarding experience it has been to become part of the school community. There is a deep and genuine school spirit which is fostered by the principal and enthusiastically embraced by the talented team of teachers and support staff.

Thank you Farmborough Road Public School!
